Conservation

Site Updates

- River Road
 - Site is reclassified to a Class 2 for continued work due to a significant source of contamination encountered in bedrock. Which will require a record of decision.
 - Bedrock Groundwater IRM pre-design investigation (PDI) workplan is approved and work is scheduled to begin in September. The purpose of the IRM will be to remove or treat the source of VOCs in the bedrock.

Site Updates

John Street

Remedial Investigation is complete

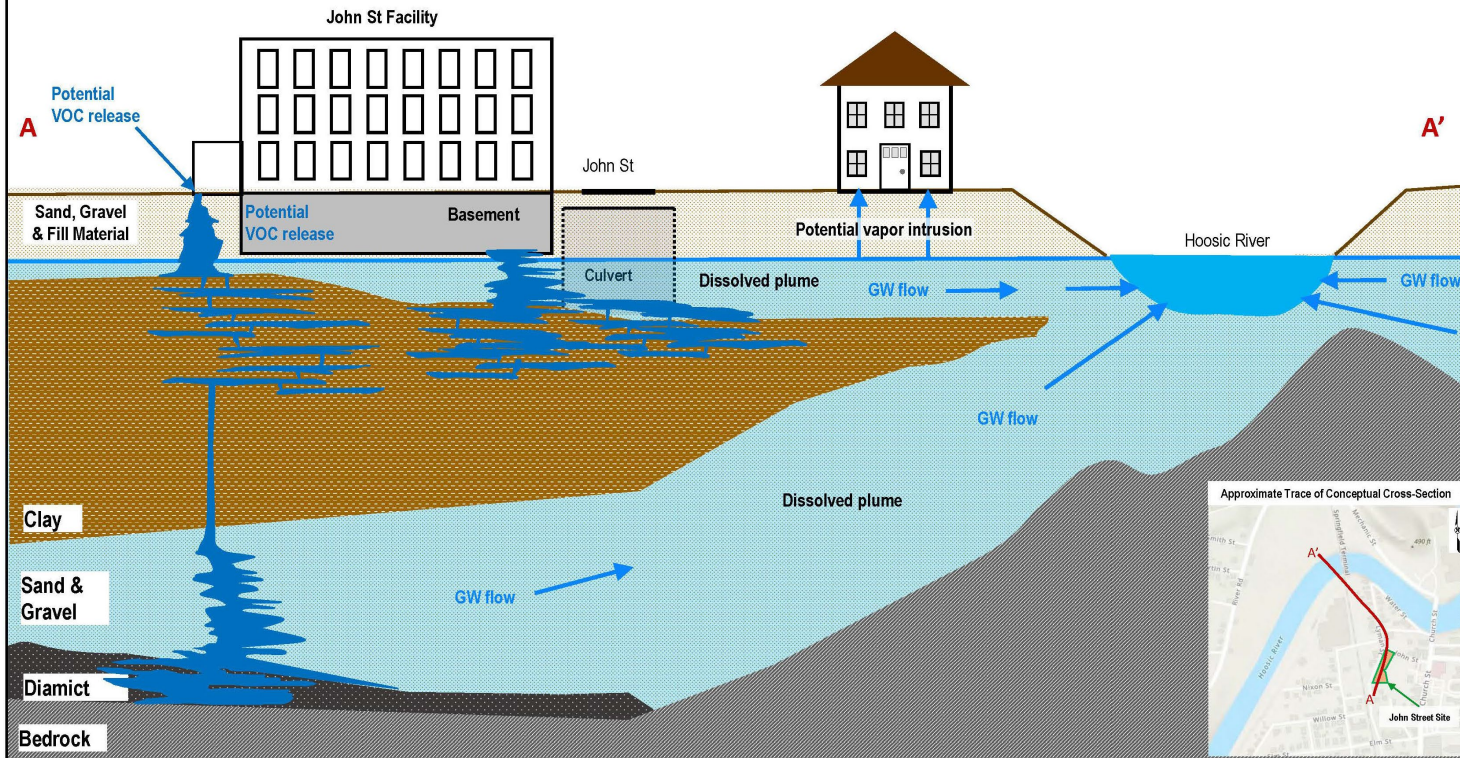

- RIR approved May 2022

Feasibility Study

- Work plan approved 8/15
- Evaluate Remedial Alternatives
- eight evaluation criteria

Generalized Concept of Potential Historical VOC Releases During Facility Operation
